Here's where every
everyone was.

SOLUTION PAGE

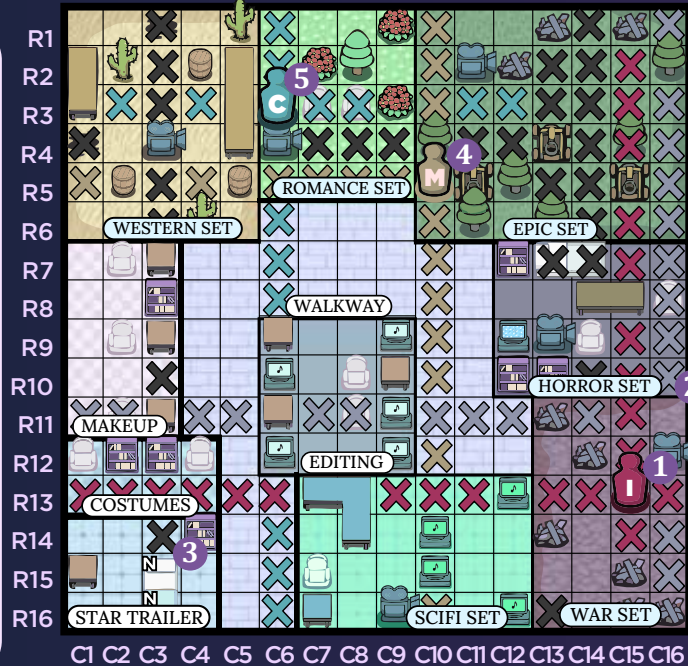

1. According to the general clue, there's one person beside each camera. So in R1 to R6, three people are beside cameras. Also in R1 to R6, there must be F beside a cactus, D beside some flowers, and M beside a catapult. That accounts for everyone in R1 to R6. This isolates I on the last mud puddle.

2. This isolates someone beside the camera in R11 C16 (per the general clue).

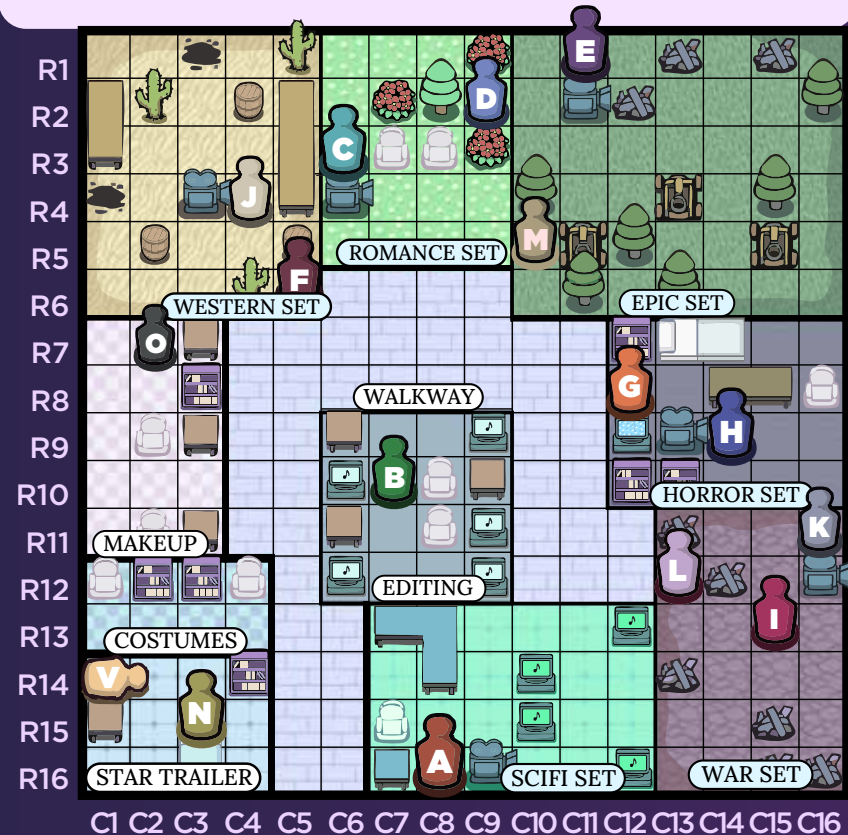

3. In C13 and C14, there is someone beside the camera on the Horror Set, plus L somewhere beside some rubble. Block the rest of C13 and C14. This sets N on the bed in C3.

4. This sets the Western Set camera person in R4. This isolates M on the last square beside a catapult.

5. This isolates C beside the camera in the Romance Set.

12. This isolates J in the last square not beside a wall, then V. V was alone with N in the Star Trailer, Natalia is the murderer!

The murderer is...
Natalia
